A personal touch from Powder N Shine

Ski tour operator **Powder N Shine Ltd** (0845 163 7596 www.powdernshine.com) has always believed in providing a home from home atmosphere at each of their three high quality catered chalets in Reberty Village (Three Valleys).

Co-owner of Powder N Shine, Francesca Pangli, has now largely handed the day to day culinary control over to her team of chefs (who have all spent time in Michelin starred kitchens). However, she is still just as keen for guests to experience a personal touch and is introducing her own home made jams, pickles and chutneys that will be available to guests throughout the winter.

All ingredients will be sourced in local markets throughout the Alpine summer and autumn and made by Francesca at her home in St Martin de Belleville. This week the first batch of Apricot jam has been tested and put in Kilner jars ready to delight the taste buds of hungry skiers as part of the renowned Powder N Shine breakfasts.

To complement the preserves, there will also be a weekly breakfast compote such as rhubarb, prunes, apricots and blueberry served with natural yoghurt and granola for a well balanced, healthy breakfast. In the evenings, Francesca's onion marmalade and chilli jams will sit alongside local cheeses on the cheeseboard.
